ANURAG SHARMA

Lalitpur, Nepal | aanuraag007@gmail.com | +977 9862051754 | *Portfolio* | *LinkedIn* | *Github*

PROFESSIONAL SUMMARY

Aspiring analyst with hands-on experience in Python, SQL, and Power BI, through academic and self-driven projects. Skilled in data cleaning, EDA (Exploratory Data Analysis) and dashboard development to generate actionable business insights.

TECHNICAL SKILLS

Languages: SQL(Complex joins, Window Function, CTEs, Aggregation, Indexing, Subqueries), **Python**

Python Libraries: Pandas, Numpy, Matplotlib, Seaborn

Data Visualation: Power BI, Tableau

Tools: Excel(Pivot Tables, VLOOKUP, XLOOKUP), Git, Jupyter Notebook

Analytics: Data cleaning, EDA, Statistical Analysis, KPI Analysis

PROJECTS

Vendor Performance Analysis| *GitHub* | Tools: *Python, SQL, Power BI*

- *Analyzed vendor performance data across 50+ vendors using Python and SQL evaluating 4-6 KPIs including delivery time, order accuracy, cost variance and defect rate.*
- *Performed data cleaning and exploratory analysis on 10,000+ records using Python (Pandas, NumPy) and SQL aggregations.*
- *Developed an interactive Power BI dashboard to rank vendors, identify the top 20% high-performing and bottom 15% underperforming suppliers, enabling data-driven procurement decisions.*

Customer Segmentation Analysis| *GitHub* | Tools: *Python, Pandas, Seaborn, Scikit-learn*

- *Conducted exploratory data analysis on 5,000+ customer records to uncover trends in purchasing behavior and engagement metrics.*
- *Applied K-means clustering to segment customers into 4 distinct groups based on purchase frequency and monetary value.*
- *Generated actionable insights enabling targeted marketing strategies and potential improvement in customer retention and lifetime value.*

End-to-End Data Pipeline & Analysis| *GitHub* | Tools: *Python, SQL, APIs / CSV, Automation*

- *Designed and implemented an end-to-end data pipeline to ingest data from multiple sources (APIs and CSV files) into a structured SQL database.*
- *Automated data cleaning, transformation, and loading processes using Python scripts, reducing manual processing time by 60–70%.*
- *Performed analytical reporting on 20,000+ processed records to identify trends, anomalies, and key business insights.*

CERTIFICATIONS & ACHIEVEMENTS

- **National AI Hackathon 26** - Kode Dristi | Certification Link
- **Python(Pandas)**- Kaggle | *Certification Link*
- **Data Visualization (Power BI)**- Coursera | *Certification Link*
- **SQL (Advanced)** - HackerRank | *Certification Link*
- **Data Analytics** - Simplilearn Skillup | *Certification Link*

EDUCATION

BSc. CSIT (Computer Science and Information Technology)

At Tribhuwan University, Lalitpur, Nepal
Expected Graduation at 2028
Relevant Courses: Statistics, Mathematics, DBMS, AI
